

## **Informations on Corruption 1.60**

(may miss some info)

Bugs 1.40 (not tested again):

### **- Convenience store girl (Alice) :**

After she is corrupted to level 1 when you go on a date her character disappears after going to the restroom

### **- Subway :**

After the 2nd gas potion use you can't have access to the corresponding dialogs with the wagon girls.

Using a 3rd will get you to the woman you can harass.

All potions are available at sanctuary ( 3 types : normal, male and gas )

The corruption level is indicated by the outfits of the characters.

The more slutty outfit they wear the more corrupted they are.

Events and actions are tied to the corruption level, if you want to see all events/actions don't give potions too fast

Also some special events need several characters to be at a defined level of corruption. It would be wise to corrupt all characters at the same level before going further.

### **Special events :**

- Dinner at home (Mother, sister, neighbour corruption levels at least level ???, this event changes with the level of corruption) : Phone - Neighbour (Megan) - Invite to your home

- Family dinner at Aunt's home (Mother, sister, aunt, twins (cousins)) : Discuss with aunt and twins in yard of aunt's (I only tested it with max corruption level)

- Working as maids at cafe (Mother, sister, boss) : Action possible in living room at home

- Ex-teacher, mother, sister

- Ex-teacher, neighbour, neighbour's daughter

- Ex-teacher, school Principal, her daughter and granddaughter

- Policewoman, police chief

- School Principal's daughter and granddaughter, suburbs' housewives

### **Warnings :**

- once enslaved the non-enslaved actions can't be seen again (ex. : make your mother and daughter work in maid outfits in cafe).

- if you enslaved your mother and sister before being in good terms with your neighbour's husband you will block your future path.

- if you have corrupted characters too much (by cheat or before an update of their content is released you will be blocked because their corruption level is too high and won't trigger the new content. You need to begin a new game, use a previous saved game or change their corruption level in console.

- some characters won't increase their corruption, they need certain events to happen before continuing (Principal, Megan, Michelle, Maria)

- some characters are inaccessible until some events or corruption levels are attained (Principal, Principal's daughter and granddaughter, Michelle, Grandmother)

- on the day of the release there can be bugs, read the posts on the 2 days following the release (date on the first post) and you may find other posters providing patch or workaround for these bugs

### **Items :**

you should quickly buy the items in the sex shop, they are required to let some characters perform specific actions (rope play, ...)

### **Money :**

if you play without cheat I advise you :

- Always go to work on morning on week days (500 \$)

- Work on your computer until evening (100 \$ for unit of time)

- Buy normal potions at beginning, others are useless for now

- First corrupt your boss (+100\$ by level of corruption) and it doesn' take a unit of time since you are at work

- Second take the school job (Tuesday and Thursday, +1000 \$), you can work on cafe in morning then go to school job on these days. Warning : when you go work in school You will be transfered directly in your room at night (end of day) even if you go in the morning.

- You can also go to the other area by subway and work in fast food (500\$ by unit of time) (if you are still in this area at night go to the apartment building :

if you don't already visited your grandmother, Justin's apartment and drink with him to pass the day

else go to your grandmother and sleep)

### **Info on "sharing" your women :**

From what I have seen the most you "share" your women (main women only, those listed on the phone) with other men is in general letting others oggle them.

As for touching them except somme touching ass of Jenny in maid outfit while working in the cafe, there is nothing else (I might have missed something).

Your women are having lesbian tendencies when they reach at least level 1 corruption.

The women not on your phone are "free public use" which don't have a name are "free public use".

The women with names are "whores" but we don't see them have sex with others in the scenes.
